Vim

---

## Work Experience

### **Eastern Illinois University**

Senior Application Developer

August 2013 - Present

Developed multiple web applications for various departments at EIU.  
Spearheaded incorporation of Nexus maven repository to facilitate in-house plugin development.  
Developed Java application for synchronizing student photos between two enterprise apps.  
Regularly provided Junior Developers with troubleshooting assistance.

#### **Technical Environment**

Groovy / Grails, Java, Tomcat, SVN, AngularJS

### **Heartland Dental Care**

Application Developer

March 2012 - August 2013

Updated and maintained legacy applications using a smattering of languages.  
Implemented Java-based web services to centralize some commonly-used patterns.  
Created several Ruby on Rails applications from the ground up.  
Worked with several APIs to provide additional functionality to enterprise apps.

#### **Technical Environment**

PHP, Apache2, Drupal, Ruby on Rails, Perl, ColdFusion

### **Champaign, IL Fire Department**

Contract

January 2014

Worked with the department to determine a cost-effective and timely re-work of their evaluation process.  
Created several PDF evaluation forms for the evaluators to fill out and return.

---
